Inclusive Excellence

Inclusive Excellence was first introduced by the American Association of Colleges and Universities (AAC&U) in 2005 as a methodology for helping colleges and universities realize the benefits of diversity and inclusion, and their positive impact on institutional quality. As a guiding principle, Inclusive Excellence is meant to include and engage the rich diversity of students, staff, faculty, administrators, alumni and community constituents in the overall success of the university. Thus, we recognize this work to be a journey of discovery and transformation for every aspect and level of the university.
