COVID-19 Impact on Student Status: Details

We started taking online courses. But the fact that we were half way in the program made a possible change. In other words, knowing each other and collaborate in the privious courses made that transition not too bad

Prior to the Covid-19 break out we were having in person courses. We went to a 100% online curriculum, very quickly, which was an adjustment for students and professors.

The program started as a hybrid but went completely online when COVID hit.

My courses had to be finished online due to Covid 19.

salary increase

Coach

industry recognition

Slight pay raise.

Got a job at a K-12 school, which was my goal when joining the program.

Became a Homeroom Teacher

none, Framingham was not beneficial

Having a Master's degree certainly help me attain my current role. While I'm not technically in an educational field of expertise, I do educate people daily. I couldn't do my job without my experience as a teacher and I couldn't show the value of that experience without the degree.

Teacher

I teach a higher level

I was able to obtain a position as an Associate Professor of English at a university.

I got the job once I finished the graduate program.

Comments and Feedback

The professors were amazing and personal. They brought the art and science of facilitating learning into the classroom Every day. They inspired. I feel blessed to have taken the master's program at FSU and felt like it was worth every penny.

How will Framingham's staff help me to get a [redacted] Teaching License.

This is a worthwhile learning journey.

One of the main reasons that students based in [redacted] chose this program was to receive teaching licence [redacted]. However, after Covid [redacted] does not recognize this degree anymore, which means all of us who completed this course cannot reach one of the most important reasons for applying to study at FSU.

Unfortunately, the university did not help us in communicating with the [redacted] and did not take any steps to pave this way for us. So now, even though we have successfully completed our degree, we cannot get a raise in our salary or even extend our stay here [redacted] as a qualified educator.

Please use the space below to elaborate on any of the questions above and/or to comment on any other aspect of your graduate experience not covered in this questionnaire.

Would've loved if y'all included your candidates from other countries into the graduation ceremony. My whole group was left out, of the online ceremony and nothing was done

The Framingham program was promoted to English teachers [redacted] as a legitimate path towards a [redacted] permanent teaching license. All program participants had the attainment of this license as their ultimate goal. However, upon completing the program, no one in my cohort has been able to attain this license. I realize that the government policies are out of Framingham's control, but there has been no assistance from Framingham. In fact, Framingham is still promoting their program as a means to achieve the license, which is not true at the time I am writing this. All members of my cohort have been disappointed in Framingham's lack of assistance, and many of us are being forced to choose between leaving our lives in [redacted] or finding a new university program to gain a degree that can help us remain in the country. There are many complicated reasons for this license issue, which only those involved in the [redacted] education system understand, but the lack of assistance from Framingham has left me and my fellow graduates disappointed and regretful of the decision to spend our time, effort, and money on the Framingham program.

Many graduates from my cohort and future cohorts have uncertainty regarding continuation of employment due to the ongoing equivalency issues [redacted] towards purposes of obtaining a teacher licence [redacted]. This was main goal for majority of graduates taking course in [redacted]. Would be very much appreciated if Framingham could address this with relevant [redacted] education/ teaching licence authorities.

Comprehensively covered

It was a great experienced to take my M.Ed.at Framingham, Thanks
