lindacrafty@yahoo.com  
Mobile: 508-769-7603  

COURSE DESCRIPTION: 
An introduction to the educational uses of Twitter, Snapchat, and Instagram. The course explores the world of tweets, retweets, direct messages, follows, and hashtags. Students learn how to take a snap and create a story using Snapchat and how to share photos and stories using Instagram. Students apply these tools in their classrooms to promote responsible interactive learning. 

STUDENT LEARNING OUTCOMES: 
At the end of this course, students will be able to: 

- Create lessons and activities that promote interactive learning. 
- Explain how Twitter, Snapchat, and Instagram can support a collaborative teaching environment. 
- Demonstrate a basic understanding of Twitter, Snapchat, and Instagram by creating accounts and using these tools with their colleagues. 
- Align the use of social media tools with the Massachusetts Curriculum Framework. 
- Engage in collaboration with peers to design and discuss best practice strategies. 
- Compile a list of resources for use in the classroom setting. 

Massachusetts Technology Literacy Standards addressed: 
Standard 1:
Demonstrate proficiency in the use of computers and applications, as well as an understanding of the concepts underlying hardware, software, and connectivity. This standard includes:

- learning and adapting to new and emerging technology tools.

**Standard 2:**
Demonstrate the responsible use of technology and an understanding of ethics and safety issues in using electronic media at home, in school, and in society. This standard:

- relates to social, ethical, and human issues. It promotes positive attitudes toward the uses of technology, as well as responsible use of information. This standard also includes recognition of technology’s impact on civic participation, the democratic process, and the environment.
- aims to ensure that students understand general rules for safe Internet practices, including how to protect their personal information on the Internet.
- is to help students develop an awareness of the personal image that they convey through the information they post on the Internet.
- supports students in exhibiting leadership for digital citizenship.

**Standard 3:**
Demonstrate the ability to use technology for research, critical thinking, problem solving, decision making, communication, collaboration, creativity, and innovation. This standard:

- focuses on applying a wide range of technology tools to student learning and everyday life.
- aims to ensure that students will be able to use technology to process and analyze information.
- is to help students develop skills for effective technology-based communication.
- includes the use of technology to explore and create new ideas, identify trends, and forecast possibilities.
- aims to provide students with an awareness of how technology is used in the real world.

**National Standards:**
This course will apply the National Educational Technology Standards (NETS), the National Board for Professional Teaching Standards (NBPTS), and the Massachusetts Technology Literacy Standards and Expectations.

**NETS:**
1. Facilitate and Inspire Student Learning and Creativity
2. Design and Develop Digital-Age Learning Experiences and Assessments
3. Model Digital-Age Work and Learning
4. Promote and Model Digital Citizenship and Responsibility
5. Engage in Professional Growth and Leadership

**NBPTS:**
1. Teachers are Committed to Students and their Learning
2. Teachers Know the Subjects they teach and How to teach those Subjects to Students
3. Teachers are responsible for Managing and Monitoring Student Learning.
4. Teachers Think Systematically about their Practice and Learn from the Experience.
5. Teachers are Members of Learning Communities.

**Course Expectations:**
This course is designed as a collaborative four-week online learning experience. All participants are expected to complete all readings, participate in weekly discussions, and complete assignments. If you anticipate being away during any part of this course, make plans to have access to a computer connected to the internet. Late work is not accepted.
