Discussion Board Rubric for Asynchronous Discussion Participation

A Quality of Postings Indicator

Asynchronous discussion enhances learning as participants share their ideas, perspectives, and experiences with the class. Participants develop and refine their thoughts through the writing process, plus broaden their classmates' understanding of the course content. Each weekly discussion is organized around the Guiding Questions, which participants must respond to through posts throughout the week.

Post your thoughts and provide supporting evidence using the readings and videos. DO NOT just give the facts. Posts MUST reflect how the readings and videos have impacted upon your thinking and the work that you do.

Participants will use the following guidelines to improve the quality of their discussion contributions.

Grading Discussion Board Posts

Discussion postings that meet all criteria for a grade level will receive the highest points possible at that level. Postings that meet mixed levels of criteria will receive a score within the point range of the appropriate levels.

Participation in discussion activities can only be measured by the date on the discussion posting. For example, participating 3 times during the week is measured by postings on 3

different days; there may be 5-6 postings, but participation only occurred 3 times during the week.

Rubric for Discussion Board

There are four criteria, Posts throughout the week, Details in each post, The quality of information in response to other's posts, and the Frequency of Weekly Discussion Posts. The highest amount of points that can be earned in one week, for a score of excellent, is a score of 10 points.

***Criteria** – Excellent 10 points

***Posts throughout the weekly discussions** - Build on other's posts & comments analytically. Quotes directly from other's posts.

- Discussion at a critical level means discussing, for example, the following:
 - Opinion of the facts gathered, or facts mentioned by others in the discussion group
 - Why the opinion is held
 - What is wrong with the fact/s mentioned
 - Are the points, facts, opinions, consistent and or inconsistent with the material presented so far
 - What are the implications for the future, consistencies, and or inconsistencies within the readings or videos?

Participants should justify their analysis, providing their own opinions, not just quote information. However, your opinion must be backed up by quoting from the content.
