Re: Use of Balloons at Framingham State University

For various environmental, health, safety, and maintenance reasons, Framingham State University restricts the use of balloons on campus.

Outdoor

Balloons of any kind are not permitted on Framingham State University grounds.

Indoor

Latex balloons and/or balloons inflated with helium are prohibited.

With the approval of the Director of Environmental Health and Safety or the Coordinator of Campus Events, non-latex balloons that are inflated with a substance that does not cause them to float are permitted in University buildings. Balloons should be retrieved following the event, deflated, and properly disposed of.

Please include in your Campus Event Policies.
