

### **Immunizations and TB Testing for a Small Fee**

The Health Center offers TB testing (PPD test) for \$20. These tests are administered Mondays, Tuesdays, Wednesdays and Fridays and students must be able to return to the Health Center 48-72 hours later to have the test read. Please call ahead of time to schedule the appointment and to verify that the test is in stock. Local pharmacies and urgent care clinics can also administer this test.

The influenza vaccine may be offered at the Health Center – watch for email announcements regarding flu clinics. All students are encouraged to get immunized against the flu before coming to campus in the Fall.
