

Unlimited Visits for Health Concerns/Illnesses

The Health Center is open to all students, including full-time, part-time, commuter and residents, undergraduate and graduate. There is never a co-pay for a visit, and students are not limited to a set number of visits per year. Insurance is not notified of visits to our office – student fees cover the costs. All visits are confidential and follow strict HIPPA privacy guidelines.

We are happy to set up appointments to discuss health concerns or questions, as well as for illnesses. Same day appointments are usually available – call or walk-in to schedule an appointment. 508-626-4900
