II. Overview

The room selection process has been designed to give eligible returning students options to select a room assignment for the 2021-2022 academic year in a convenient and time efficient manner. The room selection process is generally seniority based. Accordingly, more and more options are potentially available as a student’s seniority increases at FSU.

By participating in the Room Selection Process, eligible students have the opportunity to make some choices about their room type, roommate(s) and/or residence hall. It is important to carefully review eligibility requirements outlined in Section III.

There are two phases to the Room Selection Process for returning students: (1) Single Room Selection and (2) Open Room Selection. Eligible students have the option to participate and select a room in either:

1. **Single Room Selection**: Selection of single occupancy rooms (except those conjoined with another room or in a suite) and designated double-as-single rooms. These rooms are in Corinne Hall Towers, Larned, Horace Mann, Peirce and Linsley Halls. Please note that Linsley Hall will be open and Peirce Hall will be a coed hall for 2021-2022.

   OR

2. **Open Room Selection**: Selection of traditional/standard rooms, suites, conjoined rooms (including conjoined singles), rooms on Living Learning Community (LLC)/Theme housing floors, full academic year housing (Linsley Hall/Miles Bibb Hall), gender-inclusive assignments, and extended quiet hours floors. These options are described more in section VI of these Guidelines.

Eligible applicants may select in only one section of the room selection processes. Once a room has been selected, applicants may not participate further in the room selection process, (e.g. a student may not be assigned a single room and then participate in open room selection). Applicants should choose housing that best meets their needs and interests.

Current students with lower priority sometimes worry that all rooms will be assigned before it is their turn to select a room. This should not be a concern - even after all current students participate in the Room Selection Process, spaces will remain open and be assigned next year’s incoming class and students off the housing wait list.
Students are reminded that the term of the Residence Hall License Agreement is for the full academic year (Fall and Spring Terms) unless the resident graduates at the end of the Fall Term or participates in a FSU sponsored exchange program.

Lastly, while the vast majority of selected assignments do not change, the University reserves the right to change room assignments and fill vacancies at any time.

If, after reviewing these Guidelines, you have questions please contact Residence Life and Housing by phone at 508-626-4636 or by email to ResidenceLife@Framingham.edu.
III. Room Selection Step-by-Step Instructions

1. Complete the 2021-2022 Housing Application
   a. Application can be accessed via the myFramingham portal. Once in myFramingham select “Student”, then “Student Life” and then the “myResLife” login. For step by step instructions please see Appendix A.
   b. Within the application be sure to carefully review the Residence Hall License Agreement, which is for the full academic year (Fall and Spring) and includes information on housing reservation cancellation charges which would apply if you cancel housing after room selection begins.

2. Create a roommate group (if applicable)
   a. Students wishing to live together must establish a roommate group which can be done through the application. This includes selecting a leader of the group who selects the group’s assignment. Students can return to the group page of the application to make adjustments as needed after initially completing the application. For full instructions please see Appendix B. Not applicable for Single Room Selection participants or those not interested in selecting with a particular roommate.

3. Participate online
   a. Students who complete the application will receive a selection appointment date and time via FSU student email. For groups, the group leader needs to make the selection for those in the roommate group. Detailed instructions can be found in Appendix C.
IV. Eligibility Requirements

1. Room Selection Eligibility
In order to be eligible to participate in the Room Selection Process, applicants must:
- Be an active matriculated FSU student registered for Spring courses.
- Fill out online housing application and Residence Hall License Agreement by deadlines listed in Important Dates section for Single Room Selection or Open Room Selection.

2. Maintaining Eligibility for On-Campus Housing
Applicants may lose eligibility for on-campus housing if they do not:
- Remain an enrolled student in good academic standing (must be an active student, not be on academic suspension/dismissal, and must be attending classes)
- Register for classes by the end of the add/drop period.
- Maintain student account in good standing.
- Abide by all terms of the Residence Hall License Agreement.
- Maintain a full course load. Any resident student who wishes to drop below a full course load must make a written request, and have the approval of the Associate Dean of Students, Student Life.

3. Residence Hall Suite Eligibility
In addition to maintaining eligibility, students interested in living in suites must:
- Not be on Disciplinary Probation status at the time of occupancy. Students currently on Disciplinary Probation may apply for a suite if their status ends prior to start of Fall semester.
- Apply as a member of one suite group only.

NOTE: Any person who selects a suite and is later placed on disciplinary probation, or is found to be ineligible, will be removed from the suite and reassigned to another space on campus.

4. Students on Residential Review
Students on Residential Review are allowed to participate in room selection.
V. Room Selection Options

There are two different sections of the room selection process. Selection appointments are the dates/times when an eligible student can go online to the myResLife portal to select housing for the upcoming year. Residents who fill out the application on time, but who do not participate in the Room Selection Process, will be assigned to a room on a space available basis.

1. Single Room Selection

This process allows participants to select single occupancy room in Horace Mann Hall, Peirce Hall, Linsley Hall, or Corinne Hall Towers. A number of double-as-single rooms will also be available through single room selection. Please note:

- Peirce Hall, with some portion of the first floor being designated male, will be a coed hall in 2021-2022.
- Single occupancy rooms attached to Miles Bibb Hall (North) suites or conjoined rooms in Miles Bibb Hall (North) and West Hall are not selected through single room selection – they are selected through open room selection.

Single room selection appointment timeslots will be scheduled according to seniority-based priority order (see Section VI for a detailed explanation of room selection priority). Single room availability is limited so delaying selection beyond your assigned appointment timeslot may diminish your ability to select a single. For this reason, we advise participating in selection at, or as soon as possible once your timeslot opens.

Because single room and double-as-single room availability is limited please consider back-up plans. Applicants not able to select a single occupancy room will be able to revisit their housing application to create or join a roommate group after Single Room Selection and then will be given an appointment date and timeslot for participation in Open Room Selection. Applicants, not able to select a single room will be placed on the single room wait list automatically (provided there are no single rooms left at the end of single room selection), but must participate in open room selection to remain on the single room wait list.

Students with a documented disability requiring a single room accommodation must participate in the single room selection process and select from available singles which meet their needs. If unable to select an appropriate room through the Single Room Selection, approved students with a documented disability should email Residence Life at residencelife@framingham.edu after single room selection for assistance.

2. Open Room Selection

During open room selection, participants can select from a range of available traditional/standard rooms, suites, conjoined rooms (including conjoined singles), rooms on Living Learning Community (LLC)/Theme housing floors, full academic year housing (Linsley Hall), gender-inclusive assignments, and extended quiet hours floors.

Open Selection appointment timeslots will be scheduled according to seniority-based priority order (see Section VI for a detailed explanation of room selection priority).

In order to participate in this process, applicants must complete the Housing Application on myResLife by dates listed above and, if interested in living with a specific roommate or roommates, create or join a
roommate group on their applications. Applicants will receive a selection appointment date and time by student e-mail prior to Open Selection. Beginning at their appointed timeslot student group leaders will be able to log onto myResLife, to select a room assignment for their group. Students who are not part of a group will also be able to log onto myResLife to select a room assignment at their appointed timeslot.

Please pay attention to the time frames, as punctuality is important in maintaining seniority advantage in selection—you will have more options by logging on as close to your timeslot as possible.
VI. Hall/Room Types Available During Open Selection

1. Suites
Suites are defined by the presence of a shared common living room. There are up to 65 suites available:

- In Miles Bibb Hall there are up to 49 four-person suites available. Each includes:
  - private bathroom;
  - common room; and,
  - Two (2) double occupancy rooms
  - Miles Bibb Hall (North) suites may be coed, or may be designated as gender inclusive housing spaces.

- In Linsley Hall there are four eight-person (8) suites and eight six-person (6) suites. Each includes:
  - private bathroom,
  - common room; and,
  - double occupancy rooms (three or four depending on suite capacity)

- In Horace Mann Hall there are two (2) junior suites (one male and one female). Each includes:
  - common room;
  - two double occupancy rooms; and,
  - two single occupancy rooms

  - there are no private bathrooms in Horace Mann suites

Note: West Hall rooms are considered conjoined rooms, and not suites for room selection purposes.

The following policies apply to residence hall suites:

- Students are responsible for cleaning and maintaining their suites, including restrooms, according to health and safety standards prescribed by the University. Maintenance staff does not provide cleaning service to occupied suites.

- In accordance with fire safety, the number of people present in a suite at any given time may not exceed twice the capacity of the suite (e.g. 4-person suites are limited to a maximum of 8 people present at any given time). Suite members are expected to communicate with one another and coordinate their guests and visitors accordingly.

Examples of suite floor plans can be found in Appendix D.

2. Conjoined Rooms in Miles Bibb (North) and West Halls

- Conjoined rooms in Miles Bibb and West share a private bathroom. In West residents also share an entry area with a vanity and sink.

- Some conjoined rooms include a single room configuration,

- Students in conjoined rooms are responsible for cleaning and maintaining their shared common bathrooms and entry/vanity area (West Hall).
3. Gender Inclusive Housing

Gender inclusive housing is available to any student who meets on-campus housing eligibility requirements and who wishes to live in a room with another eligible resident without restriction based on their roommate’s biological sex, gender, gender identity, or gender expression. Depending on the applicant’s interests and needs, Residence Life will consider gender inclusive options in all residence halls.

All Miles Bibb Hall (North) and West Hall housing options include shared private bathrooms. Other halls have community bathrooms designated either (a) “male” by sex/gender identity; (b) “female” by sex/gender identity; or, (c) as single user bathrooms without sex/gender identity designation. Private or gender inclusive single user bathrooms are available in Miles Bibb and West Halls, and on some floors in Linsley Hall.

Current resident students who are interested in a gender inclusive assignment should indicate their preference on their housing application, and email the Residence Life Assignment Coordinator, Laurie Carr (lcarr@framingham.edu) upon receipt of their room selection appointment time to review and select from available gender inclusive rooms in seniority order. Students will not be asked to disclose why they have selected a preference for gender inclusive housing.

In the event a vacancy occurs in a gender inclusive room assignment the remaining resident will be given an opportunity to pull in another eligible resident if housing demands allow. During high occupancy periods, either another student requesting gender inclusive housing will be assigned to the vacancy or the room’s designation will default to assignment by biological sex.

Couples involved romantically are discouraged from choosing gender inclusive housing. It is up to the discretion of individual students interested in gender-inclusive housing whether they wish to discuss this option with their parents.

4. Full Academic Year Housing/Vacation Housing Hall

Linsley Hall will be open for academic year vacation periods (Thanksgiving, Winter & Spring Breaks) with no additional applications/break charges. Linsley Hall residents may remain in the hall through the academic year and do not need to leave during vacation periods. Following room selection, Miles Bibb residents will be given the option to opt into full academic year/vacation housing for an additional cost.

Students selecting the Full Academic Year + Vacation Housing (Thanksgiving, Winter & Spring Breaks) option agree to extend the terms of the Residence Hall License Agreement through the Thanksgiving, Winter and Spring Break vacation periods. Please note: There is no meal plan during the vacation housing period and campus dining services will be available on a limited basis during vacation periods.

All halls, except for Linsley Hall and Miles Bibb Hall, will be closed for Thanksgiving, Winter and Spring Breaks during the academic year.

5. Extended Quiet Hours Floor (Larned Hall)

Students interested in living with others who wish to commit to a quiet floor environment may want to consider the Extended Quiet Hours Floor. This floor will be designated on Larned Hall’s 2nd floor. This option is available for individuals willing to commit to an environment with extended quiet hours (8:00 p.m. - 8:00 a.m. Sunday through Thursday).
6. Living Learning Community (LLC)/Theme Housing Options

a. Arts Collective (Corinne Hall Towers)
Corinne Hall Towers is home to the Arts Collective floor; this option is designed for students involved in the performing or visual arts. VII. Additional Room Selection Guidelines

1. Room Selection Priority Order

Room selection priority order plays a role in the room selection process. Residents wishing to live with a desired roommate will want to carefully review this information.

In both single room and open room selection processes, the order in which participants will select rooms is determined by a seniority-based lottery system. Priority levels are used to recognize the seniority of current students. To determine the order in which rooms will be selected, students are divided into one of four priority levels, according to the number of credit-bearing courses completed plus those currently in progress. This is similar to the class determination for registration as outlined in the University’s “Undergraduate Catalog”.

**Most Seniority**
- Priority Level I (24 completed courses and above)
- Priority Level II (16 – 23 completed courses)
- Priority Level III (8 – 15 completed courses)
- Priority Level IV (less than 8 completed courses)

**Least Seniority**

Within each priority level, students are then assigned a random computer-generated selection appointment time. This is the time that selection will first be available to a student on the myResLife portal. Students need not select at this specific appointment time and may select at any time until the close of selection, however, fewer choices will be available as time progresses.

For example, if there are 125 current students in priority level III, the computer will shuffle those 125 students and assign each student an appointment timeslot within the selection date and time. Students with the earliest timeslot in that priority level (e.g. #1) would then have the opportunity to select a room before students whose appointment time has not yet opened. Generally, a participant’s choices increase with seniority and improve by selecting at earlier appointment times.

2. Rooms Designated to Accommodate Students with Disabilities

The rooms listed below may be reassigned to students with disabilities if the need arises. Persons without disabilities are free to choose these rooms with the understanding that, should a student with a disability need housing in the future, they would be reassigned. If the need for displacement occurs, every effort will be made to maintain the existing roommate configuration. However, due to space constraints, this cannot be guaranteed.

1. Students registered through Framingham State University for a study abroad program; and
2. Students who have completed all graduation requirements at the end of the fall semester.

The agreement does not include residency during the University’s vacation periods (Thanksgiving, Winter & Spring Breaks) unless a student has selected, or is assigned to Linsley Hall or those in Miles Bibb who opt into vacation housing, in which case the agreement includes the Thanksgiving, Winter and Spring Breaks.

Note: All resident students are required to enroll in a resident student meal plan.

Cancellation of Housing Charges:

- **Before Room Selection:** a student who withdraws from the residence halls/on-campus housing by providing written notice to the Associate Dean of Students, Student Life, by email to residencelife@framingham.edu before April 20, 2021 will be removed from on-campus housing and incur no housing charges.

removed from on-campus housing and have applicable charges cancelled less a $300 housing reservation cancellation charge.

- **Prior to September 1, 2021:** Between August 1 and August 31, 2021, a student who withdraws from the residence halls/on-campus housing, but not from the University, by providing written notice to withdraw from the residence halls/on-campus housing to the Associate Dean of Students, Student Life, by email to residenccelife@framingham.edu; remains responsible for room and board charges unless the University is able to fill the vacancy in the housing system created by the student’s withdrawal from housing. Any withdrawal approved for refund after August 1st will have applicable charges cancelled less a $400 housing reservation cancellation charge.

After August 31st a student who withdraws from the residence halls/on-campus housing, but not from the University remains responsible for room and board charges for the full term of the agreement (Fall and Spring Terms) unless the student is released from the agreement via a formal petition in accordance with the Housing Petition Guidelines.
