Entrepreneurship Courses & Internship – Fall 2015

ENTR 495  Entrepreneurship “Internship Practicum”

See and experience much of an enterprise creation by being one of the 2 FSU student interns for the Fall 2015 semester. Gain hands on experience in how to start a business by working with entrepreneurs on their innovative ideas. Work up to 10 hours a week, in addition to a two-hour weekly seminar. Dates: Fall 2015 (September 2nd – December 15th)

Fall interns are unpaid and will work 10 hours per week at the Innovation Center, a 10-minute walk from campus. The work includes managing the center as well as taking on entrepreneur projects. Requirement: Must have a 2.75 GPA.

What’s in it for you?

1) Meet entrepreneurs who may be able to hire you as their business grows larger.
2) Earn credit for a full elective.

Application Deadline:  Sunday, August 23rd at 5 PM (Preferably Earlier)

The application may be found on the FSU Entrepreneur Innovation Center webpage (http://www.framingham.edu/innovation-center/student-interns.html) or by prompting for the form through an email to innovation@framingham.edu.

Fall 2015 Entrepreneur Courses

ENTR 300  Entrepreneurship, Start Your Own Business (Required Course for Concentration)

This course is a study of the challenges and opportunities of starting up a business. Entrepreneurs tend to have limited resources and limited experience. Their goal is beating the odds of failure, growing and becoming profitable. Students adopt the tools necessary to design and develop a new business and engage their creative thinking capabilities. Students develop a business plan, which brings together the marketing, operations, management, funding, accounting and legal aspects of business start-ups. Real world entrepreneurs may be featured as guest speakers. Course taught by Professor Carrie Johnson.

ENTR 301  Cultivating and Managing Innovation

What drives successful innovation? How are innovations transformed into profitable and/or social change organizations? Why are some regions like Massachusetts able to stay more innovative over long periods of time? These questions, and others, will be addressed in this special topic course designed to help students be creative in their jobs, inspire start-ups, and/or manage people and teams charged with being innovative. Course taught by Dr. Bob Krim.

Prerequisite (Both Courses): ENGL 110 Expository Writing, and at least a sophomore standing.
